

# Mentor. Friend. My teacher!

Nowadays, teachers are one of the most important part of school, society, life. Teachers can perform too many roles, such a mentor, friend. All of this is done to help a student to meet this world. Teacher always ready to help you, instruct on the right way. Your master also can a good friend for you, who you can share your secrets with.

In the first place, teacher is a mentor, a person, who can tell you about anything. Teacher will hold you through the all difficulties, will raise from the beginning. In my opinion, master will teach pupil about everything that he knows. All of the mentors do it to give their knowledge to the future generation. If they hadn't done that, humanity couldn't be where it is now.

What is more, teacher also can be a good friend for you. Of course, you can trust your mentor, since teacher will not harm you. Your master will advise you such a good ways to solve a problem. Teachers is a very accomplished and clever friend. I think pupil can share his interests, hobbies, successes with your mentor. Teachers are always happy to hear about their learners' wins. Mentor's cheers are very important for students.

To sum up, I believe that teacher is a mentor and a good friend for you. Teacher's main purpose is to share his knowledge with young people and to help students to meet this life. People can't live without wise teachers, who will tell you about anything.

Keep calm and love your teachers!
